

Facelift, Platysmaplasty, Cheeklift Cleanings!

Clean all the incisions in front, back of ear and in the hairline with a Q-tip and Hydrogen Peroxide. Apply a thin layer of Antibiotic Ointment on the incisions using a Q-tip, DO NOT apply any ointment in hairline. **MAKE SURE YOU ARE NOT PULLING EARS FORWARD WHILE CLEANING!** Do this 6 times daily starting on DAY ONE.

You DO NOT have to clean the incision underneath chin. Please leave tape on until next appointment!

Wash face with balls of fingers 3 times a day with Cetaphil soap. Pat dry! Starting Day 1 may wash hair, do not use any shampoo today. Starting Day 2 wash hair using Baby Shampoo only, do not scrub incision lines in hair. Do not use other hair products for 2 weeks.
