

BBL Post Care Instructions:

- Stay out of the sun for 2 weeks post treatment.
- Do not exfoliate your skin for 1 week post treatment.
- You may experience some redness and swelling in your treatment area. This usually goes away within 24-48 hours.
- You may use a gentle exfoliant week 2 in order to encourage the exfoliating process.
- You may wear makeup directly after your treatment if you wish.
- Rain or Shine, use a minimum of 30 SPF daily. (A mineral sunblock has Zinc Oxide and/or Titanium Oxide listed in the active ingredients on the back of your container.)
